Independent Auditor's Report on Financial Statements

Board of Trustees
Central Union High School District
El Centro, California

Members of the Board of Trustees:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Central Union High School District as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Central Union High School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Central Union High School District as of June 30, 2012, and the respective changes in financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2012, on our consideration of Central Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Central Union High School District's financial statements as a whole. The combining financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The accompanying other supplementary information is presented for purposes of additional analysis as required by the State's audit guide, *Standards and Procedures for Audits of California K-12 Local Education Agencies 2011-12*, published by the Education Audit Appeals Panel, and is also not a required part of the financial statements. The combining financial statements and other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Management Discussion and Analysis For the Central Union High School District For the Fiscal Year Ended June 30, 2012 (Unaudited)

The following Management Discussion and Analysis (MD&A) highlights the significant factors that influenced the financial performance of the Central Union High School District during the fiscal year ending June 30, 2012. The MD&A is a requirement of GASB 34 and should be read in conjunction with the district's financial statements for the fiscal year 2010-12.

Financial Highlights

- The district's total net assets were \$62,925,188 as of June 30, 2012. This represents a \$1,647,824 increase from the audited beginning balance of \$61,277,364.
- Total General and Program Revenues were \$38,222,726 as compared to \$36,574,902 in expenditures.
- Average Daily Attendance decreased by 54.8 students; from 3,891.59 in 2010-11 to 3,836.74 in 2011-12.

Overview of the Financial Statements

The following are the components of the GASB 34 reporting model:

Management Discussion and Analysis
District Wide Statements
Statement of Activities
Statement of Net Assets
Fund Statements
Budgetary Comparison
Notes to Financial Statements

The Management Discussion and Analysis (this section) is a narrative analysis of the district's financial performance over the course of the fiscal year.

The District-wide financial statements report information about the district as a whole. All funds are included. There are two types of District-wide Statements; the Statement of Net Assets and the Statement of Activities. The Statement of Net Assets includes all of the district's assets and liabilities and reports the changes that occurred during the fiscal year. The Statement of Activities reports all of the district's revenues and expenditures accounted for in the current year, regardless of when the cash was paid.

The two district-wide statements report the district's net assets and how they have changed. Net assets, the difference between a districts assets and liabilities, is a common tool used by outside agencies to measure the district's fiscal health or determine it's financial position. Over time, increases or decreases in the district's net assets are an indicator of whether its financial position is improving or deteriorating.

The districts activities are divided into two categories in the district wide financial statements 1) Governmental activities and 2) Business-type activities. All of the district's activities are considered governmental activities for GASB reporting purposes.

Fund Financial Statements

Fund Financial Statements provide more detailed information about the district's specific funds, not the district as a whole. These are the familiar types of statements used for reporting purposes prior to the district's implementation of GASB 34. The purpose of Fund Financial Statements is to assist the district in keeping specific sources of funding separate due to State laws and restrictions on spending particular types of funds (i.e. Adult Education Fund is separate from the Deferred Maintenance Fund and the Cafeteria Fund, etc).

In Fund Accounting, there are three types of funds; 1) Governmental Funds 2) Proprietary Funds and 3) Fiduciary funds. The majority of the funds accounted for by Central Union High School District are governmental funds. The district uses governmental funds to account for all of the activities in the General Fund, including collection and disbursement of earmarked money (Special Revenue Funds), the acquisition or construction of general fixed assets (Capital Project Funds) and the servicing of general long term debt (Debt Service Funds).

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. The two forms of proprietary funds are enterprise funds and internal service funds. The district does not currently operate any proprietary funds.

Fiduciary funds are used to account for and manage assets that belong to others, such as scholarship funds or student activities funds. Fiduciary activities are reported in separate fiduciary statements. Their activities and operations are excluded from the district wide financial statements because the district cannot use these assets to finance its operations. The district does not currently operate any fiduciary funds, other than student body funds.

Financial Analysis of the District as a Whole

The Statement of Net Assets and the Statement of Activities report information on the district as a whole rather than on individual funds. The following is a summary of the districts financial position as of June 30, 2012.

Proprietary and Fiduciary Fund Types

The district does not currently operate any proprietary funds (i.e. Self Insurance funds, etc).

Fiduciary Fund Types

Central High School and Southwest High School both operate Associated Student Body accounts and as a whole, they had an operating surplus. The district operates no other Fiduciary funds.

Analysis of General Fund Budget

Over the course of the year, the district revised the annual operating budget several times. The following table is an analysis of the budget verses actual expenditures within the general fund.

Analysis of Budget Verses Actual

Capital Assets and Long-Term Debt Administration

Capital Assets

By the end of fiscal year 2011-12, the district had invested \$94,432,813 in land, school buildings, site improvements, vehicles, and equipment. Total book value of capital assets was \$62,156,322, net of \$32,276,491 in accumulated depreciation.

Long-Term Debt

At the end of the year, Central Union High School District had \$17,682,341 in long-term debt outstanding. This is a decrease from prior year of \$637,084.

The following table summarizes the district's long-term debt as of June 30, 2012.

Central Union High School District		
Outstanding Long-Term Debt		
Governmental Activities		
	2010-2012	2010-2011
GO Bonds Payable & Other LT Debt	13,375,000	14,305,000
Other Long Term Debt	3,999,617	2,516,341
Capital Leases Payable	191,961	1,397,302
Compensated Absences Payable	115,763	100,782
TOTAL	17,682,341	18,319,425

Factors Bearing on the District's Future

The most important factor that could have a significant impact on the district's financial future is the condition of the State economy. The economic environment in the state is unstable and revenue forecasts have continued to fall short of State projections. There is a strong possibility of mid-year budget cuts in 2012-13. Significant cuts to the education budget could have a negative financial impact on the financial health of the district.

Contacting the District's Financial Management

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2012

Net change in fund balances - total governmental funds \$ (4,057,331)

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital Outlay: In governmental funds, the cost of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay	6,637,486	
Depreciation expense	<u>1,907,624</u>	
Net		4,729,862

Debt service: In governmental funds, repayment of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were: 1,335,454

Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the governmental-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was: 115,794

Postemployment benefits other than pensions (OPEB): In governmental funds, OPEB costs are recognized when employer contributions are made. In the statement of activities, OPEB costs are recognized on the accrual basis. This year, the difference between OPEB costs and actual employer contributions was: (217,452)

Debt issue costs: In governmental funds, debt issue costs are recognized as expenditures in the period they are incurred. In the government-wide statements, issue costs are amortized over the life of the debt. The difference between debt issue costs recognized in the current period and issue costs amortized for the period is: (250,510)

Amortization of debt issue premium or discount: In governmental funds, if debt is issued at a premium or discount it is recognized as an Other Financing Source or as an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized as interest over the life of the debt. Amortization of premium or discount for the period is: 6,988

Compensated absences: In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was: (14,981)

Change in net assets of governmental activities - statement of activities \$ 1,647,824

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

A. Summary of Significant Accounting Policies

Central Union High School District (District) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's "California School Accounting Manual". The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

1. Reporting Entity

The District's combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the District's reporting entity, as set forth in GASB Statement No. 14, "The Financial Reporting Entity," include whether:

- the organization is legally separate (can sue and be sued in its name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

The District also evaluated each legally separate, tax-exempt organization whose resources are used principally to provide support to the District to determine if its omission from the reporting entity would result in financial statements which are misleading or incomplete. GASB Statement No. 14 requires inclusion of such an organization as a component unit when: 1) The economic resources received or held by the organization are entirely or almost entirely for the direct benefit of the District, its component units or its constituents; and 2) The District or its component units is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the organization; and 3) Such economic resources are significant to the District.

Based on these criteria, the District has no component units. Additionally, the District is not a component unit of any other reporting entity as defined by the GASB Statement.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Statements: The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

The District reports the following major governmental funds:

General Fund. This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Special Reserve Fund for Capital Outlay Projects. This fund exists primarily to provide for the accumulation of General Fund monies for capital outlay projects.

Bond Interest and Redemption Fund. This fund is used to account for the accumulation of resources for, and the repayment of district bonds, interest, and related costs.

Cafeteria Fund. This fund is used to account separately for federal, state, and local resources to operate the food service program.

County School Facilities Fund. This fund is used to account for apportionments received from the State School Facilities Fund authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants.

In addition, the District reports the following fund types:

Special Revenue Funds: These funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Capital Projects Funds: These funds account for the acquisition and/or construction of all major governmental general fixed assets.

Debt Service Funds. These funds account for the accumulation of resources for, and the payment of general long-term debt principal, interest, and related costs.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its year-end to be available in the current period. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

4. Assets, Liabilities, and Equity

a. Deposits and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Depository Insurance Corporation. All cash held by the financial institutions is fully insured or collateralized.

In accordance with Education Code Section 41001, the District maintains substantially all its cash in the Imperial County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds, except for the Tax Override Funds, in which interest earned is credited to the general fund. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

Information regarding the amount of dollars invested in derivatives with Imperial County Treasury was not available.

b. Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued at average cost and consist of expendable supplies held for consumption. Reported inventories are equally offset by a fund balance reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure when incurred.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	25-50
Building Improvements	15-25
Vehicles	5-15
Office Equipment	5-15
Computer Equipment	5-15

d. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

e. Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The current portion of the liabilities is recognized in the general fund at year end.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

f. Deferred Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred revenue is recorded to the extent cash received on specific projects and programs exceeds qualified expenditures.

g. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

h. Property Taxes

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 15 and March 15. Unsecured property taxes are payable in one installment on or before August 31. The County of Imperial bills and collects the taxes for the District.

i. Fund Balance Reserves and Designations

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

j. Minimum Fund Balance

The District has adopted a policy to maintain a minimum reserve of 16.7% of the annual general fund expenditures and other financing uses. The percentage is approximately an amount equivalent to two months of expenditures. If the reserve amount drops below 8.4%, a plan will be developed to recover the difference in two years. The minimum reserve shall apply towards the established minimum Reserve for Economic Uncertainties or an amount that meets or exceeds the requirements by law. The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. Because amounts in the nonspendable, restricted, committed, and assigned categories are subject to varying constraints in use, the Reserve for Economic Uncertainties consists of balances that are otherwise unassigned.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

k. GASB 54 Fund Presentation

Consistent with fund reporting requirements established by GASB Statement #54, Fund 17 (Special Reserve for Other Than Capital Outlay) and Fund 20 (Special Reserve Fund for Postemployment Benefits) are merged with the General Fund for purposes of presentation in the audit report.

l. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates. Actual results could differ from those estimates.

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None reported	Not applicable

2. Deficit Fund Balance or Fund Net Assets of Individual Funds

Following are funds having deficit fund balances or fund net assets at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>
None reported	Not applicable	Not applicable

C. Excess of Expenditures Over Appropriations

As of June 30, 2012 expenditures exceeded appropriations in individual funds as follows:

<u>Appropriations Category</u>	<u>Excess Expenditures</u>
Cafeteria Fund:	
Classified salaries	\$ 19,573
Books and supplies	30,730

D. Cash and Investments

1. Cash in County Treasury:

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Imperial County Treasury as part of the common investment pool (\$9,460,597 as of June 30, 2012). The fair value of the District's portion of this pool as of that date, as provided by the pool sponsor, was \$9,460,597. Assumptions made in determining the fair value of the pooled investment portfolios are available from the County Treasurer.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

2. Cash on Hand, in Banks, and in Revolving Fund

Cash balances on hand and in banks (\$440,963 as of June 30, 2012) and in the revolving fund (\$6,000) are insured up to \$250,000 by the Federal Depository Insurance Corporation. All cash held by the financial institution is fully insured or collateralized.

3 Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The county is restricted by Government Code Section 53635 pursuant to Section 53601 to invest only in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. The Imperial County Investment Pool is rated AAA by Standard & Poors.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains an investment with the Imperial County Investment Pool with a fair value of \$9,460,597 and a book value of \$9,460,597. The weighted average days to maturity for this investment pool is 370 days.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

4. Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District's investments in external investment pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

K. Joint Ventures (Joint Powers Agreements)

The District participates in two joint powers agreements (JPA's) entities, the Imperial Valley Property and Liability (IVPL) and the Self Insurance Program of Imperial County (SIPIC). The relationship between the District and the JPA's is such that the JPA's are not component units of the District for financial reporting purposes.

The JPA's arrange for and provide workers' compensation, health, and property and liability insurance for its members. The JPA's are each governed by a board consisting of a representative from each member entity. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member entities beyond their representation on the board. Each member pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the JPA's.

Combined condensed financial information of the District's JPA's for the year ended June 30, 2012 was not available as of the date of this report.

L. Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS), and classified employees are members of the Public Employees' Retirement System (PERS).

PERS:

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

Funding Policy

Active plan members are required to contribute 7% of their salary (7% of monthly salary over \$133.33 if the member participates in Social Security), and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2011-12 was 10.923% of annual payroll. The contribution requirements of the plan members are established by state statute. The District's contributions to CalPERS for the fiscal year ending June 30, 2012, 2011 and 2010 were \$438,680, \$550,381 and \$544,525, respectively, and equal 100% of the required contributions for each year.

YEAR ENDED JUNE 30, 2012

STRS:

Plan Description

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability, and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from the STRS, 7667 Folsom Boulevard, Sacramento, California 95826.

Funding Policy

Active plan members are required to contribute 8% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2011-12 was 8.25% of annual payroll. The contribution requirements of the plan members are established by state statute. The District's contributions to STRS for the fiscal year ending June 30, 2012, 2011 and 2010 were \$1,108,663, \$1,353,273 and \$1,320,132, respectively, and equal 100% of the required contributions for each year. The amount contributed by the State on behalf of the District was \$661,665.

M. Postemployment Benefits Other Than Pension Benefits

Plan Description

The Central Union High School District (District) administers a single-employer healthcare plan (Plan). The District maintains the same plan for its retirees as for its active employees with the general exception that benefits end when the retiree attains age 65. Certificated members may retire with District-paid benefits at age 55 with at least 15 years of service with the District. Benefits continue until the retiree reaches age 65. The District's contribution towards medical benefits is limited to a monthly cap of \$628 per retiree. Classified members hired prior to July 1, 2005 may retire with District-paid benefits at age 55 with at least 10 years of service with the District. Classified employees hired on or after July 1, 2005 and before July 1, 2008 may retire with District-paid benefits at age 55 with at least 15 years of service with the District. Classified employees hired on or after July 1, 2008 may retire with District-paid benefits at age 55 with at least 20 years of service. Benefits continue until the retiree reaches age 65. The District's contribution towards medical benefits is limited to a monthly cap of \$700 per retiree. Health benefits for management retirees are subject to Board approval, and if approved, they follow the certificated guidelines as described above, except that management retirees do not receive District-paid life insurance. Retired board members do not receive District contributions towards benefits. They are eligible to self-pay for these benefits upon completing a full term of service on the governing board. Membership of the plan consists of approximately 325 eligible active employees, 33 eligible retirees, and excludes employees hired after the valuation date.

Contribution Information

The contribution requirements of Plan members and the District are established and amended by the District and the Teachers Association (CEA) and the local California Service Employees Association (CSEA). The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2011-12, the District contributed \$484,805 to the Plan, which was primarily used for current premiums.

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

Annual OPEB Cost and Net OPEB Obligation

The District's annual other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years., The following table shows the components of the District's annual OPEB cost of the year, the amount actually contributed to the plan and changes in the District's net obligation to the Plan:

Annual required contribution	\$ 723,289
Interest on net OPEB obligation	69,865
Adjustment to annual required contribution	(90,897)
Annual OPEB cost (expense)	<u>702,257</u>
Contribution made	(484,805)
Decrease in net OPEB obligation	<u>217,452</u>
Net OPEB obligation, beginning of year	1,397,302
Net OPEB obligation, end of year	<u>\$ 1,614,754</u>

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for 2012 was as follows:

<u>Year Ended June 30,</u>	<u>Annual OPEB Cost</u>	<u>Percentage Contributed</u>	<u>Net OPEB Obligation</u>
2012	\$ 702,257	44%	\$ 1,614,754

Funding Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and Plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2011 actuarial valuation, the actuarial cost method used was Projected Unit Credit with service prorate. Under this method, the Actuarial Accrued Liability is the present value of projected benefits multiplied by the ratio of benefit service as of the valuation date to the projected benefit service at retirement, termination, disability or death. The Normal Cost for a plan year is the expected increase in the Accrued Liability during the plan year. All employees eligible as of the measurement date in accordance with the provisions of the Plan listed in the data provided by the Employer were included in the valuation

CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2012

Medical cost trend rates ranged from an initial rate of 7.0% reduced to a rate of 5.0% after five years. The UAAL is being amortized at a level dollar method with the remaining amortization period at July 1, 2012 of 26 years. The actuarial value of assets was not determined in this actuarial valuation; however, any assets of the plan to be determined will be on a market basis.

N. Commitments and Contingencies

Litigation

The District is involved in various litigation. In the opinion of management and legal counsel, the disposition of all litigation pending will not have a material effect on the financial statements.

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to view and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

Construction Commitments

As of June 30, 2012 the district had the following construction commitments for unfinished projects:

<u>Project</u>	<u>Commitment</u>	<u>Expected Date of Completion*</u>
Central Union High School Modernization	\$ 639,706	September 2012

* Expected date of completion subject to change

O. Adjustment to Net Assets

Government-wide beginning net assets were restated for the following:

Government-wide net assets, as originally stated	\$ 61,385,112
Adjustment for:	
Land not recorded in a prior year	2,071,180
Long-term debt not recorded in a prior year	<u>(2,178,928)</u>
Government-wide net assets, as restated	<u>\$ 61,277,364</u>

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

Average daily attendance is a measurement of the number of pupils attending classes of the district. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

This schedule discloses the district's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the district's ability to continue as a going concern for a reasonable period of time.

The general fund balance has increased by \$1,277,357 over the past three years. The fiscal year 2012-13 budget projects a decrease of \$2,862,468. For a district this size, the state recommends available reserves of at least 3% of general fund expenditures, other uses and transfers out.

Long-term debt has increased by \$426,819 over the past three years.

Average daily attendance (ADA) has decreased by 634 over the past three years.

Notes:

- 1 Budget 2013 is included for analytical purposes only and has not been subjected to audit.
- 2 As described in Note A to these financial statements, for purposes of reporting in conformity with GASB Statement #54, the District's Special Reserve Fund for Other Than Capital Outlay (Fund 17) and Special Reserve Fund for Postemployment Benefits (Fund 20) were included with the General Fund. CENTRAL UNION HIGH SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2012

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Central Union High School District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the general purpose financial statements.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trustees
Central Union High School District
El Centro, California

Members of the Board of Trustees:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Central Union High School District as of and for the year ended June 30, 2012, which collectively comprise the Central Union High School District's basic financial statements and have issued our report thereon dated December 14, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Central Union High School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Central Union High School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Central Union High School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Central Union High School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Central Union High School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

Report on Compliance with Requirements That Could Have a Direct and Material Effect on each Major Program and on Internal Control Over Compliance In Accordance With OMB Circular A-133

Board of Trustees
Central Union High School District
El Centro, California

Members of the Board of Trustees:

Compliance

We have audited Central Union High School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Central Union High School District's major federal programs for the year ended June 30, 2012. Central Union High School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Central Union High School District's management. Our responsibility is to express an opinion on Central Union High School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Central Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Central Union High School District's compliance with those requirements.

In our opinion, Central Union High School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Central Union High School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Central Union High School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Central Union High School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report on State Compliance

Board of Trustees
Central Union High School District
El Centro, California

Members of the Board of Trustees:

We have audited the basic financial statements of the Central Union High School District ("District") as of and for the year ended June 30, 2012 and have issued our report thereon dated December 14, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. We have also audited the District's compliance with the requirements specified in the State's audit guide, *Standards and Procedures for Audits of California K-12 Local Education Agencies 2011-12*, published by the Education Audit Appeals Panel, applicable to the District's statutory requirements identified below for the year ended June 30, 2012. Compliance with the requirements referred to above is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

The auditing standards referred to above require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the state laws and regulations applicable to the items in the schedule below occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

<u>Description</u>	<u>Procedures In Audit Guide</u>	<u>Procedures Performed</u>
Attendance Accounting:		
Attendance Reporting	6	Yes
Teacher Certification and Misassignments	3	Yes

The term "N/A" is used above to mean either the District did not offer the program during the current fiscal year or the program applies to a different type of local education agency.

We did not perform testing for Independent study because the ADA generated by independent study was below the level which required testing.

In our opinion, Central Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the statutory requirements listed in the schedule above for the year ended June 30, 2012.

This report is intended solely for the information and use of the Board of Trustees, management, State Controller's Office, Department of Finance, Department of Education, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

CENTRAL UNION HIGH SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2012

<u>Finding/Recommendation</u>	<u>Current Status</u>	<u>Management's Explanation If Not Implemented</u>
<p>Finding 2011-1 Student Body Funds</p> <p>In our review of the disbursements of the Central Union High School Student Body Funds we noted student body expenditures were being paid with a personal credit card and then reimbursed so that the individual could earn reward points on the credit card. We also noted that two items purchased with student body funds were delivered to a parent's house instead of the school site or district office and that one disbursement was made out to "cash" in order to reimburse students for a fundraising project that did not materialize.</p> <p>We recommended establishing a maximum amount that would be reimbursed for student body purchases on credit cards. We also recommended establishing a policy to ensure that only designated District employees were authorized to make purchases of items with student body funds and that all deliveries be made to the school site or the District office. We also recommended establishing a policy that no student body checks be made out to "cash".</p>	<p>Implemented</p>
