#### CRDC SY2011-12 PART 2 SCHOOL FORM

School Name:	Certified:
School ID:	Certification date/time
LEA Name:	Name of Certifier:
PDF generation date/time:	

Part 2 of the SY 2011-12 CRDC is a continuation from Part 1. All survey items cover school year 2011-12. Questions your LEA did not answer due to skip logic will be marked as "N/A" (for example, elementary schools will see N/A for interscholastic athletics).

#### **General Instructions**

- All Part 1 and Part 2 CRDC data are for the same school year.
- It is important to review the CRDC definitions, FAQ and User's Guide before gathering and entering data.
- Each LEA needs to complete an LEA Form and a School Form for each school in the LEA.
- The final step for an LEA in completing its CRDC submission is to complete the LEA certification. Before
  certifying, an LEA will need to run the Submission (LEA and Schools) Data Check function.
- For all survey items, students must be counted at their attendance school. See *Attendance school* in the definitions.
- Counts by race/ethnicity by sex are unduplicated counts, i.e. a student is counted only once in the race/ethnicity columns. Counts in the columns for Students with Disabilities (IDEA), Section 504 Only, and LEP are unduplicated within the column, but are duplicate counts with other columns, except that a student cannot be counted under both Students with Disabilities (IDEA) and under Section 504 Only. For example, a student who is LEP and is a student with disabilities (IDEA) will be counted three times, once under race/ethnicity, once under students with disabilities (IDEA), and once under LEP. See *Duplicated counts* and *Unduplicated counts* in the definitions.
- For tables that include data by race/ethnicity by sex, the Web-based survey tool will keep a running total of the
  values you enter in the race/ethnicity columns for each row. As you enter a number in any race/ethnicity
  category, that number will automatically be added to the Total column. Therefore, the sum of the counts that you
  enter for race/ethnicity by sex will be the total count of students for the particular row. Because it is not possible
  for your LEA to modify the total, you must ensure that every student is included in one and only one race/ethnicity
  category.
- The LEA Users Guide provides useful information about using the Web tool.

#### SCH-0036: Discipline of Students with Disabilities

- Enter the number of students for each table.
- Include ONLY students with disabilities; count both those served under IDEA and those served under Section 504 but not IDEA.
- Count the cumulative number of students for the entire school year.
- In the race/ethnicity category rows, include ONLY students with disabilities who are served under IDEA.
- In the next to last row, include ONLY students served under Section 504 but not served under IDEA.
- See the definitions section and review definitions carefully. The definition for "out-of-school suspension" (tables C and D) is different for students with disabilities (IDEA) than for other students. In this survey item:
  - o For the race/ethnicity rows, use the definition for students with disabilities (IDEA)
  - For the Section 504 Only row, use the definition for students without disabilities and students with disabilities served solely under Section 504.
- In the last row include both LEP students that are served under IDEA and LEP students served under Section 504 only. Do not count a student in both table C and table D. Otherwise, a student may be counted in more than one table.
- See general instructions for information on duplicated and unduplicated count.
